## THE SUMMER SESSION

SUMMER instruction began at Middlebury College in 1909 on the plan then generally prevalent of offering a few courses each in a considerable number of subjects. The difficulties before a small college in sustaining meritorious short courses upon a program at once so broad and so thin were apparent from the start, and much study was given to the problem of so directing the work of the Middlebury College Summer Session as to enable it to make in due time a distinct contribution to educational progress. As a result there has been developed at Middlebury a type of work which is unique among the summer schools of America. The Summer Session of 1927 brought to Middlebury students and teachers from thirty-nine states and foreign countries. They represented ninety-five of the leading colleges and universities in the country and twenty-five normal schools.

## THE FRENCH AND SPANISH SCHOOLS

THE organization of the French and Spanish Schools with separate residence and dining halls for each is designed to produce the best conditions obtainable for the intensive pursuit of these languages. No elementary courses are offered, and from the first students speak the language of the school. Geography, commerce, industry, art, music, history, government, and institutional and social life are covered by the variety of courses offered. Native instructors only are employed and the needs of every student receive attention. The standard of work has steadily advanced in each school. Eighty-one per cent of the students enrolled in these two schools in 1927 held baccalaureate and advanced degrees. While not exclusively graduate schools, only those undergraduates will be admitted whose attainments are satisfac-

tory to the Deans of the respective schools. The right is reserved to place all students in the classes best suited to their advancement. The social and recreational life of the schools is so arranged as to furnish constant conversational stimulus outside the classroom to promote mastery of the language and ease and freedom in its use.

## THE ENGLISH SCHOOL

THE plan of the English School is to bring together under ideal surroundings a group of writers, students, and teachers of English. The work of each season is complete in itself, yet so related to the work of previous and succeeding years that candidates for the degree of Master of Arts in English may work toward this end. A four-fold division of the field provided for the needs of various types of students of English: (a) composition of different types and degrees of proficiency, involving training in various forms of creative writing; (b) critical appreciative studies in the English language and literature in courses suited to the needs of students pursuing the degree of Master of Arts; (c) the technique of teaching English, involving grammar, rhetoric, composition, reading, literature, and the drama, with laboratory problems; (d) the theory and practice of dramatic expression, making use of the facilities of the little theatre. The English School is conducted at Bread Loaf Inn, on the edge of the Battell Forest, twelve miles east of the College in the midst of Vermont's most beautiful mountain scenery.

## THE CHEMISTRY SCHOOL

THE arrangement of courses in the Chemistry School is designed to suit the needs of a number of classes of students. In general the arrangement is made to meet the requirements of the following groups:

a. Graduate and undergraduate students who are candidates for a degree.
b. Medical, premedical, and biology students.
c. Students desiring instruction of a general or special character in some industrial field.
d. Students desiring experience in research work.

One of the unique features of the school is the arrangement by which a student can do a whole year's work in any one of the courses offered. This arrangement has been in effect for a number of years and has proved to be advantageous to an increasingly larger number of students each year. Intensive work of this sort proves to be a pleasant intellectual experience for the student. Another special feature of the school is the large amount of individual attention which the instructing staff is able to give the students in small classes. All of the courses offered may be counted towards a degree.

## CERTIFICATES

STUDENTS satisfactorily completing their courses with examinations will be given certificates indicating the work done. These certificates are useful evidences of professional study, and often are accepted by examiners, school boards, and superintendents in lieu of examinations. No certificates are issued to students who do not take the examinations.

## MASTER'S DEGREE

IN the various schools of the Summer Session, courses are provided which lead to the Master's Degree. To obtain the Degree of Master of Arts or Master of Science at Middlebury College, thirty credits are necessary, of which ten may be taken at some other institution and six in a Middlebury foreign school. Thirty credits in graduate work may be

gained by proficient students in four Summer Sessions, eight credits being permissible for graduate students in a single session. *The Committee on Graduate Work* passes upon the credentials and courses of candidates for the Master's Degree. The approval of this committee must be secured before credits earned at other institutions may be counted toward the Master's Degree at Middlebury. Address Professor P. C. Voter, Chairman. Candidates for a Master's Degree must hold a baccalaureate degree from Middlebury College or some other college approved by this committee. Students desiring to count credit taken at the Middlebury College Summer Session toward degrees to be secured elsewhere must secure permission to do so from the institution to which they desire the credits transferred.

Besides the regular examinations in courses all candidates for the Master's Degree will be examined in the subject chosen for their major study, and at the discretion of the instructor under whose direction the graduate work is done may be required also to present a thesis. Degrees are conferred both at Commencement and at the close of the Summer Session following the completion of the work. A fee of $15 is required for the final examination and diploma.

## CREDITS

THOSE who desire credits must indicate that fact when they register, and, if candidates for a degree, whether baccalaureate or advanced, they must present evidence of their qualifications before they will receive credit. Not more than six credits may be gained by an undergraduate at a Summer Session, and not more than eight credits by a graduate student. No student will receive credit who has completed less than the full session (thirty classroom exercises) not including examinations.

## THE SUMMER SESSION OF 1928

THE French and Spanish Schools will open for registration on Friday, June 29, 1928, when announcements will be given of the first lectures and assignments of work. The final examinations in these schools will be conducted August 15-17. Classes will meet five days a week, beginning July 2.

The English School will be conducted at Bread Loaf Inn from July 2 to August 16, Tuesday and Wednesday, August 14 and 15 being used for examinations. Exercises in the English School are conducted five days a week with Saturday left free for out-of-door life in the mountains and forest and on the tennis courts.

The Chemistry School will open on June 30 and close August 17.

Attendance is limited to approximately one hundred and twenty students in the English School, one hundred in the Spanish School, and two hundred and fifty in the French School.

The French and Spanish houses of residence at Middlebury will open to receive students Friday night, June 29, and dinner will be served after the arrival of the evening trains. Both houses will close after breakfast on Friday, August 17. Bread Loaf Inn will receive students of the English School at dinner, Monday noon, July 2, and will supply breakfast Thursday morning, August 16. Students desiring to become guests of the Inn before the opening of the English School may do so by making early application, stating the date upon which they wish to arrive.

## ADMISSION

IN each of the schools students may enter such courses as they are qualified to take, without examinations and without being candidates for degrees. All election of courses,

however, must be approved by the Deans, whose authority is final, both as to the courses elected and the number that may be taken. Students who desire credit for degrees, whether baccalaureate or advanced, must indicate that fact when they register and must present satisfactory evidence of their qualifications before they will be given credits for collegiate or graduate work. The regulations regarding graduate work will be found on pages 114-116 of Part One of the Catalogue.

## BULLETINS

DESCRIPTIONS of the various schools are given in special circulars and bulletins. Those interested are invited to place their names upon the mailing list to receive such announcements. All inquiries regarding courses of study should be directed to the Deans of the respective schools, and requests for bulletins and correspondence regarding rooms should be directed to Pamelia S. Powell, Secretary of the Summer Session, Middlebury, Vermont.
